Program Details

Education Day (11th Nov 2026)

What is the Goal

- Dissemination of fundamental and advanced knowledge in proteomics and allied omics
- Interactive lectures by experts in the field to expose the participant to various applications of proteomics

Target Audience

- UG/PG Students
- PhD/Research scholars
- Post-doctoral fellows
- Young investigators
- Research Scientists
- Clinician Scientists
- College/University faculties

Conference (12th to 14th Nov 2026)

What is the Goal

- Two and half days of exposure to integrative and advance proteomics on human health, cell biology, plant and environment
- Presentation by expert in the thematic areas
- Interaction & Network Opportunities with eminent scientist in the field

Target Audience

- PSI members
- PhD/Research scholars
- Post-doctoral fellows
- Research Scientists
- Clinician Scientists
- College/University faculties

Thematic Sessions

Clinical Proteomics

Promoting Precision Medicine through systems level understanding

Decoding Cellular Complexity

Advanced Proteomics to dissect Molecular Mechanisms of Disease

Animal OMICs

Unlocking Animal Physiology and Disease Pathogenesis Through Integrative Proteomics

Plant OMICs

Understanding Plant growth, Stress, and Adaptation

Environment/Marine OMICs

Mapping biodiversity and ecosystem Interactions

Beyond Single Layers

Integrating Multi-Omics and Next-Generation Proteomics

Translational & Industrial Proteomics

Transforming innovation into application and entrepreneurship
