It was evident from the presentation that the presenter has no technical knowledge about specification required for BSL3 facility. The company has mostly dealt with clean room facilities and has not completed or commissioned any BSL-III facility in India. They have not made efforts to visit any BLS3 facility elsewhere prior to submitting the tender and that was evident when they were asked about the technical specification. Based on this it is evident that this job if awarded would be their first such job.</li> <li>4. Time limit to complete; although the party said that they will be able to complete in 6 months, the committee is concerned about their lack of expertise which may impact their ability to complete the project in 6 months. The company has a authorise capital of Rs 10 lacs with paid up capital of Rs 1 lac so their financial capacity is doubtful to complete the project on time. Investment of the company as on Mar 31<sup>st</sup> 2018 as per MSME Act 2006 is only Rs 1,22,727.10 and the permissible limit is only Rs 5 Lacs</li> </ol>
